

# Hachi Maamoune Kassem Mostapha

FULL STACK DEVELOPER

## Profile

Full-stack developer with over 5 years of experience specializing in developing robust, scalable, and efficient web applications. Proficient in both frontend and backend technologies, including Laravel, NestJS, Next.js, and React.js. Proven track record of delivering successful projects across various industries, including CRM, e-commerce, ERP, B2B solutions, geospatial mapping, and data management.

## Employment History

### Full stack developer, InventCorp

AUGUST 2024

At **InverCorp**, I worked as a Full-Stack Developer, where I played a crucial role in developing B2B solutions, SaaS applications, and ERP products tailored to meet the diverse needs of our clients.

### Full stack developer, CodFawry

JUNE 2024 – AUGUST 2024

As a Full-Stack Developer on the **CodFawry** project, I contributed to the development of a comprehensive e-commerce platform designed to empower businesses with a wide array of tools and features that streamline their operations.

### Full stack developer, Terrainknowledge

JUNE 2022 – JUNE 2024

At **TerrainKnowledge**, I advanced from a Front-End Developer to a Full-Stack and Mobile Developer, contributing to impactful projects such as **ClimGov** for climate change management, **Tashdjir** for forestry, **Zipam** for studying medicinal plants, **Emaar** for smart city development, and **TerrainControlle**, a mobile app for building no-code solutions and collecting field data. My role involved designing intuitive interfaces, developing scalable platforms, and creating mobile applications, demonstrating my versatility and expertise across various environmental and urban development projects.

### Front-end developer, Unic Agency

JANUARY 2022 – MARCH 2023

At **Unic**, I served as a Front-End Developer, where I was responsible for creating visually stunning and highly responsive websites that effectively showcased our clients' portfolios and services. I worked closely with UI/UX designers to bring their creative visions to life using modern front-end technologies.

### Full stack developer, Terrain Metrics Hub

JUNE 2021 – SEPTEMBER 2021

At **Terrain Metrics Hub**, I worked as a Full-Stack Developer, building and maintaining a comprehensive platform for showcasing surveying equipment used in construction and engineering. My role involved both front-end and back-end development, ensuring the website was not only visually appealing but also highly functional and scalable.

## Skills

Nestjs  
Laravel  
Nextjs  
Reactjs  
TailwindCSS  
AlpineJS

## Languages

Arabic  
English  
Germany

## Full stack developer, WifiDjelfa

JANUARY 2021 — APRIL 2021

As a Full-Stack Developer at **WifiDjelfa**, I was responsible for developing and maintaining an eCommerce platform specializing in selling IT equipments including computers and its accessoires. My work encompassed the entire development process, from front-end design to back-end management, ensuring a seamless and secure shopping experience for customers.

## Education

### Bachelor's Degree, Algiers 2 University

SEPTEMBER 2018 — JUNE 2021

I pursued a Bachelor's degree in German Language, where I gained a comprehensive understanding of German literature and grammar. My studies emphasized the intricacies of the language, including its structure, syntax, and cultural context. Through coursework in literary analysis, linguistic theory, and practical language application, I developed strong communication skills and a deep appreciation for German literary works. This education equipped me with a solid foundation in the language and its literature, enhancing my analytical and critical thinking abilities.
